## EVENTS NORTH AND SOUTH?

The South East Centre Summer Gathering at the Weald and Downlands museum just north of Chichester on Sunday, August 6th has invited us to attend as a register event and it is hoped that you will turn up to this interesting site in your hundreds. This is a major event, and the secretary of the event is Jenny Morgan on 020 8657 2714. For an entry form, see last month's *Safety Fast!* Having attended these events in the past, you are guaranteed a great day.

Following on from this, the register always supports the Midget Register Autumn Run on Sunday September 3rd. This is organised as usual by Dennis Wharf on 01296 714232, starting at Toddington steam railway, nr Winchcombe and finishing at Upton House near Banbury at Edgehill. If you are interested you should get your entry in now as numbers are limited, honest.

The register will be holding its annual Rebuild day on November 18th at Abingdon and one of the topics will be, we hope, on preparing your car for track use, and how to tweak it up a bit. As you read this, a number of MGB owners will have been to the European event in France, and sadly like me will have missed Silverstone. However I am sure that it will be a great event and I shall report on my return later.

I have been concerned for some time that these notes never seem to publicise events north of Birmingham and wonder why, I am also a member of the Owners Club (like many of you) and reading *Enjoying MG* note that there are many events each month up north. If anyone is putting on an event, please telephone me and I will gladly publicise it for you in this column - I fear that the MGCC may be missing out for prospective new members and we, plus the directors of the Club, should address this matter urgently. I am sure that a campaign would produce good results.

I recently found an Autoglym product called clean wheels which is suitable for painted or powder coated finishes. It works wonders on my wires, (not suitable for chrome by the way) and brings them up like new very quickly.

This month's photo was snapped by Mike Dalby at Silverstone. Two MGBs with consecutive numbers parked about five yards away from each other in the 'general camping'. Middlesex registered originally.
